Under the provisions of 37 C.F.R. § 1.97(c), this Information Disclosure Statement includes a certification as specified by Section 1.97(e)].

Certification : Each document listed in this Information Disclosure Statement was first cited in a communication from the European Patent Office in a counterpart foreign application. The English-language abstracts were previously submitted to the U.S. Patent Office in an Information Disclosure Statement filed April 16, 2003. Applicant has

now obtained English language translations of the previously cited non-English documents (D2, D3 and D6 in the European Search Report) and encloses them herewith. No English translation of the text of D1 was available.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and applicant determines that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,
